SENATOR ZACH CHANDLEB, if all the Democratic reports about him be true, must be a very remarkable man, physically speaking. These reports charge him, first, with having spared enough of his backbone to stiffen up, as with rods of Iron, all of the cartilegenous spines in the Republican party. and with a looseness of "lingual apparatus" which betokens the possession of an extravagant amount of tongue. Altogether, he is wonderfully and fearfully made-in the eyes of his enemies -a fact which naturally endears him to his partisan friends.

THE whisky thieves, as they are called, recently pardoned by the President out West were not all Republicans by any means, nor is it fair to assume that their pardons were prompted by partisan motives. The truth is, and the records of the Department of Justice will show it, that they were all entitled to mercy at the hands of the Government by reason of their having turned State's evidence, as the phrase goes, and that their pardons were recommended in nearly every case by Democrats and Republicans alike.

WHILE the WARNER bill was pending its Democratic advocates in the House advanced the argument in favor of its passage that it would be vetoed by President is not empty as the Post will discover in HAYES, and that the veto could be used to Democratic advantage out in Ohio. Now, however, since the bill has been practically vetoed by Senator BAYARD's revolt against King Caucus, this argument is no longer heard in Democratic quarters. In fact, the silver question, as manipulated by the Democrats, has proved to be a two-edged sword, cutting both ways and doing the most damage by its reverse action.
